

Recommended distance between hanger centres

Information within brackets ([...]) in this document refers to local regulations.

Scope

This standard provides recommendations for centre distances for both uninsulated (O) and isolated (I) pipelines that have pipe anchorage elements designed in accordance with [SSG 7001E](#).

For pipeline insulation, refer to [SSG 7591E](#).

Changes since the previous edition

This edition differs from the previous edition in that:

- In "Table 2", the previous heading DN 220–222 has been changed to DN 200–222.
- References have been updated.
