SSG's surface protection standard – an overview. Quick guide during planning and procurement

Information within brackets ([...]) in this document refers to local regulations.

Scope

SSG's Surface Protection Standard consists of a number of standards. This guide offers a general description of SSG's surface protection standard, a quick guide for planning, procurement and implementation of surface protection in accordance with SSG. The purpose is to guarantee correct implementation in order to achieve durability.

Changes since the previous edition

This edition differs from the previous one in that:

- The guide has been updated with Appendix 1 – "Checklist before starting surface treatment".
- "Fig. 1" has been changed and information in section "3" has been adjusted to conform to "Fig. 1".
- Reference to SSG 1017E Appendix 4, has been amended since the appendix has been replaced.
- Reference to SSG 1015E has been removed since the guide is withdrawn.
- Directions that SSG 1006E includes products tested according to SSG 1021E–1030E has been removed. SSG 1006E includes products tested according to SSG 1100E.
- Reference to SSG 1908E is removed. SSG 1908E is replaced by SSG 1013E.
- The previous section "Other guides and reports" have been split into two sections.
- The guide has been updated according to the current template for SSG standards.
