Pipe systems. Recommendations for the selection of materials and components and for control and inspection

Introduction

The principal difference between this edition and Edition No 4 is that new media have been included and that certain data concerning viscosity, density and the selection of gasket material have been added.

Scope

The recommendations relate to the following media groups:

Media groups			
Designation	Group code	App No.	endix Edition
Additive (undefined)	Α	1	5
Back water (white water)	В	2	5
Condensate	С	3	5
Effluent	D	4	5
Gas	G	7	5
Chemicals in liquid phase and as solids	К	11	5
Liquor, liquor by-products	L	12	5
Sludges and pigments Oil, oil derivates, lubricating	М	13	5
oil, fossil fuels	0	15	5
Pulp and fibre suspension	Р	16	5
Steam	S	19	5
Vapour	V	22	5
Water	W	23	5
