SSG 1810 E

Date	Edition	Designation	Page
1988-10-01	3	TKRR	1(2)

Pipe fittings of chemical-resistant, glassfibre-reinforced, unsaturated ester plastic for process pipes. GAP pipe fittings. Connection sleeve with flange. PN10/6

Introduction

This edition differs from Edition 2 mainly through having been adapted to the Swedish Plastic Piping Code and the corresponding Finnish Standards in this sector.

1 Designation

Connection sleeve with flange SSG 1810 - Inner diameter - Type of plastic - - (Reinforced)[1)]

1.1 Example

Connection sleeve with flange SSG 1810 - 50 - Vinyl ester

[1)] *If reinforced inner and barrier layers are required this must be specified in the designation.*

2 Requirements

2.1 General

2.11 Material

According to the Swedish Plastic Piping Code where applicable.

2.12 Manufacture

According to the Swedish Plastic Piping Code where applicable.

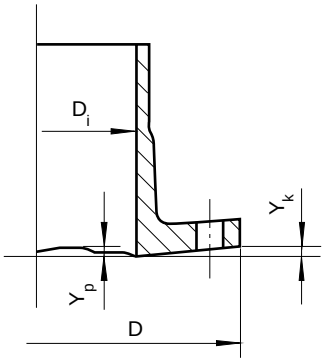

2.13 Marking

Connection sleeves with flanges shall be marked with the following information:

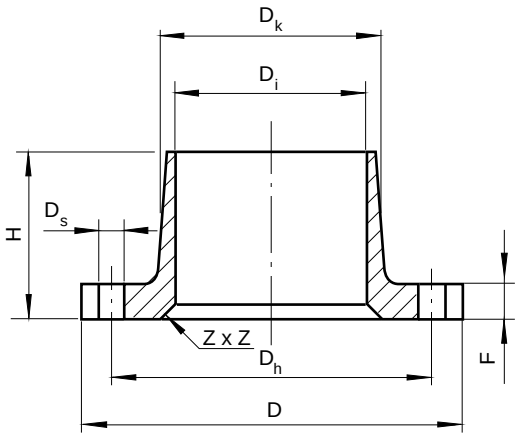

- Manufacturer's name or trade mark
- Type of plastic
- Pressure class (PN)
- Standard or type approval number
- Dimension (Inner diameter)
- Manufacturing date (year and month)

2.14 Flatness

According to Table 1.

2.2 Dimensions
