SSG 3707E

Heating, ventilation and sanitation systems: Marking, testing, documentation and training

Scope

SSG 3707E comprises recommendations for marking ventilation ducts, liquid and steam piping, etc. The instructions additionally comprise regulations for the training syllabus content, how settings/adjustments and testing of the plant are to be carried out and the requirements of the documentation to be produced and to be supplied along with the supplied equipment.

Contents

1 Marking of ventilation ducts . . . 2
1.1 Installation . . . 2

2 Marking of installation components and other . . . 3
2.1 Installation . . . 3
2.2 Example of signage for marking installation components . . . 3
2.3 Example of marking in addition to the position number plate . . . 4
2.4 Other marking . . . 4

3 Marking liquid and steam piping . . . 4
3.1 Design . . . 4

4 Training . . . 5

5 Set-up and testing . . . 5
5.1 Set-up and testing – ventilation . . . 5
5.2 Set-up and testing – cooling . . . 7
5.3 Set-up and testing – heating . . . 7
5.4 Set-up and testing – water and drainage . . . 8

6 Noise measurement . . . 8

7 Documentation . . . 8
7.1 Object cards . . . 9
7.2 Operational cards . . . 9
7.3 Operations and maintenance instructions . . . 9

8 References . . . 11
