Viktig information

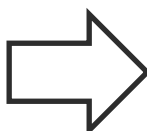

Vi har uppdaterat den visuella utformningen på denna standard för att harmonisera med vår grafiska profil.

Utgåvans nummer har inte ändrats och innehållet är detsamma som tidigare med reservation för korrigeringar av eventuella stavfel. Standarden har ny logotyp och nytt typsnitt.

Important information

The visual design is updated for this standard to harmonize with our graphical profile.

The edition number has not been changed and the content is the same as before with reservations for any spelling corrections. This standard has a new logo and new font.

STANDARD SOLUTIONS GROUP

Extent and delivery of documentation for automatic control system installations

General

These directions provide a means of specifying the extent of, and defining the responsibility for, documentation for electrical and instrumentation plants, equipment or parts thereof, whether standalone or forming part of mechanical or building structural plant or equipment.

Contents

Introduction	2
1 Documents	2
2 Checklist	3
3 Applicable standards	3
4 Documents regarding control system planning	3
4.1 Verbal description of the process	3
4.2 Process flow chart	3
4.3 Special automatic control goals	4
4.4 Control system philosophy	4
4.5 Standard directions	4
4.6 Project standard	5
4.7 Control system building	5
4.8 Data communication - Bus system	5
4.9 Operator communication	5
4.10 Document schedule	6
4.11 List of circuits/Motor list	6
4.12 System diagram	6
4.13 Sequential diagram	6
4.14 Logic diagram	6
4.15 Control diagram	6
4.16 Verbal function description	6
4.17 Circuit diagram	6
4.18 Signal lists	6
4.19 Alarm lists	6
4.20 Documentation for image construction	7
4.21 Program description/Applications	7
4.22 Program and data lists	7
4.23 Standard manuals	7
4.24 Operating instructions	7
4.25 Hardware specification	8
4.26 Control voltage distribution	8
4.27 Earthing and screening diagram	8
4.28 Wiring documents	8
4.29 Layout drawings	8
4.30 Commissioning document	9
4.31 Spare parts list	9
4.32 Preventive maintenance instructions	9
4.33 Acceptance test	9
5 Applicable standards, instructions, etc.	9

Bilaga 1: Documents regarding planning of control system
