

## Machine foundations, vibration absorbing Instructions for construction

### Scope

The document provides instructions for the erection of vibration-absorbing (i.e. isolated) machine foundations.

Appended to the standard is the form 'Technical data for the erection of machine foundations', for the procurement and awarding of construction data.

### Changes to the previous edition

This edition differs from the previous one in that sections 2 - "Concrete", 3 - "Reinforcement" and 4.1 - "Detailed design" have been revised. The section on mounting has also been deleted.
