

Machine foundations, vibration absorbing Instructions for construction

Scope

The document provides instructions for the erection of vibration-absorbing (i.e. isolated) machine foundations.

Appended to the standard is the form 'Technical data for the erection of machine foundations', for the procurement and awarding of construction data.

Changes to the previous edition

This edition differs from the previous one in that sections 2 - "Concrete", 3 - "Reinforcement" and 4.1 - "Detailed design" have been revised. The section on mounting has also been deleted.
