STANDARD SOLUTIONS GROUP

Pipe support elements – friction joint

Information within brackets ([...]) in this document refers to local regulations.

Scope

This standard provides recommendations regarding friction joints used to fasten spring supports made in accordance with SSG 7050E to beams made in accordance with SSG 7030E. These are in turn used as sections in pipe anchorages and guides made in accordance with SSG 7005E.

Changes since the previous edition

This edition differs from the previous edition in that:

- Flat bar 30x4 has been added to the description and to table 1.
- The dimension series has been expanded with Dk 711-1219.
- New material designations and standard references have been introduced.
- The standard has been updated in accordance with the current template for SSG standards.
