STANDARD SOLUTIONS GROUP

Pipe support elements – bottom part of flexible supports

Information within brackets ([...]) in this document refers to local regulations.

Scope

This standard provides recommendations for bottom parts, which are used as flexible supports made in accordance with SSG 7005E – Type 33.

Changes since the previous edition

This edition differs from the previous edition in that:

— The measurement settings are changed in sections “3.2” by H in “Fig. 1”.

— The standard has been updated in accordance with the current template for SSG standards.
