# Pipe support elements – bottom part of flexible supports

Information within brackets ([...]) in this document refers to local regulations.

# Scope

This standard provides recommendations for bottom parts, which are used as flexible supports made in accordance with <u>SSG 7005E</u> – Type 33.

# Changes since the previous edition

This edition differs from the previous edition in that:

- The measurement settings are changed in sections "3.2" by H in "Fig. 1".
- The standard has been updated in accordance with the current template for SSG standards.
