

Blind flange. DIN 2527B. Carbon steel. PN 16

Orientation

This standard is a component of the standard for PED pipe classes, SSG 7851E.

For a list of existing and future SSG PED pipe classes, see SSG 7829E.

The blind flange has been calculated according to EU Directive PED 97/23/EC. For pressure/temperature figures see SSG 7822E or SS-EN 1092:2001, table 15, PN 16. Material group:3E0.

1 Designation

Blind flange SSG 7361E - DN - Material

1.1 Example

Blind flange SSG 7361E - 200 - P265GH as per SS-EN 10 028-2
