

Blind flange. ISO and ID-dimensions. PN 25

Orientation

This standard is a component of the standards for PED pipe classes, SSG 7833E, 7838E, 7843E and SSG 7848E.

For a list of existing and future SSG PED pipe classes, see SSG 7829E.

The blind flange has been calculated according to EU Directive PED 97/23/EC. For pressure/temperature figures see SSG 7821E or SS-EN 1092:2001, table 17, PN 25. Material group: 14E0.

NB! The blind flange must be fitted together with blind spade according to SSG 7388E.

1 Designation

Blind flange SSG 7379E - DN - Material

1.1 Example

Blind flange SSG 7379E - 200 - P265GH as per SS-EN 10 028-2
