

Tees. Metric and ISO dimensions, ID/ISO. Special tees (SP2) as per PED pipe classes. Non-corrosive materials

Orientation

This standard is a component of the standards for pipe classes SSG 7830E - 7839E. The dimensions apply to special tees, SP2, visualised in red, in the standards for pipe classes SSG 7830E - 7839E.

For a list of existing and future SSG PED pipe classes, see SSG 7829E.

This standard contains the dimensions of special tees which do not comply with SS-EN 10253-3.

1 Designation

Tee SSG 7393E - Do x do x T/T¹⁾ - Material

1.1 Example

Tee SSG 7393E - 84 x 60.3 x 2/2 - 1.4307 according to SS-EN 10 253-3

2 Requirements

2.1 Dimensions

See table 1 below.

2.2 Tolerances

See SS-EN 10253-3.

2.3 Surface properties and form

See SS-EN 10253-3.

2.4 Marking

See SS-EN 10253-3.

2.5 Material

Material as per PED pipe class, see SSG 7829E, PED-pipe classes-structure.

1) See T table in applicable PED pipe class as per SSG 7829E, PED-pipe classes-structure
