

Insulation of cisterns, towers and tanks – constructional details

Scope

SSG 7596E provides supplementary instructions for detailed execution of insulation and surface coating of cisterns, towers and tanks according to **SSG 7591E** – “Insulation of pipelines, ventilation ducts, smoke flues and storage tanks”.

Changes since the previous edition

This edition differs from the previous one in that:

- References to SSG 3524E have been replaced with reference to ISO 7089 in detail no. 14.
- The language in the standard has been reviewed and its design has been updated..

Contents
